LILIM HARRISII.

Now ready for delivery.

Nothing that can be handled is more profitable than Lilium Harrisii when well grown, as there is a good and sure demand for it at all times. We are very particular about the Harrisii that we handle. Our stock is not picked up indiscriminately from small growers, but is grown for us by a few selected growers, whose stocks are healthy and free from disease, and for which we pay the highest prices. Our bulbs have never been finer than they are this season. They are exceptionally clean and bright, and run well up to size. Crop is short, especially in the larger sized bulbs, which are very scarce, and those who have not yet secured their supplies, particularly in the large sizes, should lose no time doing so. For Christmas-flowering, bulbs should be potted as early in August as they can be procured. For this purpose the 5 to 7-inch bulbs are preferable, as they can be brought into bloom much earlier than the larger bulbs. When forced for Christmas, they require a temperature of at least 65 degrees at night.

Regular stock as usually sold:
- 5 to 7-inch bulbs, $4.50 per 100; per case of 400 bulbs, $16.00.
- Our own selected stock:
  - 5 to 7-inch bulbs, $5.00 per 100; per case of 400 bulbs, $18.00.
  - 9 to 11 " 10.00 " " 100 " 20.00 (Scarce).

LILIM LONGIFLORUM (Bermuda-grown).

Now ready for delivery.

This is preferred to Harrisii by many growers of cut flowers for Easter forcing, for growing for sale as pot plants, as the foliage is considerably heavier, forming a more compact and better furnished plant when standing alone. Large sized bulbs are scarce, and necessarily high-priced. Growers have found that by planting three 5 to 7-inch bulbs in a pot, a very lovely, compact plant can be secured. Bermuda-grown Longiflorum is much superior to Japan-grown, as it can be supplied much earlier, allowing the bulbs to become well rooted early in the season, giving them a longer season, so that they can be grown more slowly, and in consequence many more flowers are produced to the bulb than in the Japan-grown Longiflorum.

Regular stock as usually sold:
- 5 to 7-inch bulbs, $4.50 per 100; per case of 350 bulbs, $14.00.
- Our own selected stock:
  - 5 to 7-inch bulbs, $5.00 per 100; per case of 350 bulbs, $16.00.
  - 5 to 9 " 6.00 " " 200 " 18.00.
  - 7 to 9 " 7.50 " " 100 " 20.00 (Scarce).

LILIM CANDIDUM (The Annunciation Lily).

Now ready for delivery.

These are being planted very largely by many growers, as they can be purchased for considerably less than the Bermuda-grown bulbs. They have been extensively planted the past season on account of the high price of the Bermuda bulbs, and some growers even prefer them to the Bermuda-grown bulbs. We offer very carefully selected stock of the very finest Japanese bulbs obtainable, but cannot deliver same until October.

- 6 to 8-inch bulbs, $3.50 per 100; per case of 400 bulbs, $13.00.
- 7 to 9 " 5.50 " " 200 " 15.00.
- 9 to 10 " 9.00 " " 200 " 16.00.

JAPAN LILIES.

Ready for delivery in November.

Lilium Auratum. —Bulbs 7 to 9 in. in circumference, $4.50 per 100; $40.00 per 1,000.
- 7 to 9 " 5.50 " " 200 " 18.00.

Lilium Album. —Bulbs 7 to 9 in. in circumference, $5.00 per 100; $45.00 per 1,000.
- 7 to 9 " 6.00 " " 200 " 20.00.

Lilium Melpomene. —Bulbs 7 to 9 in. in circumference, $5.50 per 100; $50.00 per 1,000.
- 7 to 9 " 6.50 " " 200 " 20.00.

Lilium Rubrum. —Bulbs 7 to 9 in. in circumference, $4.50 per 100; $40.00 per 1,000.
- 9 to 11 " 6.00 " " 200 " 20.00.
WHOLESALE PRICE-LIST BULBS—FALL, 1900. R. R. PIERSO CO., TARRYTOWN-ON-HUDSON, N. Y.

Callas.

CALIFORNIA-GROWN BULBS.

Now ready for delivery.

Our stock will be found to be of very superior quality. We have the bulbs grown for us by one of the most careful and experienced growers on the Pacific coast. One of our representatives who inspected our crop this season states that it was by far the finest lot of Callas that he saw on his trip through California—exceedingly vigorous and perfectly healthy in every way. Our bulbs are very carefully cured, and are perfectly sound, with good strong centers—an important consideration. Florists will find that these dormant bulbs produce much finer flowers and in greater abundance than plants that have been flowered from year to year—the difference in results being so great that it will repay the seeming expense of an outlay for bulbs each year. It will be found to be cheaper to buy new bulbs than to carry over old bulbs from year to year.

Extra quality bulbs, ¾ to 1¼ in. in diameter, $5.00 per 100; $40.00 per 1,000.
Selected bulbs, about 1½ to 2 in. in diameter, $7.00 per 100; $60.00 per 1,000.

Lily of the Valley.

Now ready for delivery.

Very large quantities of these bulbs are now grown for winter-flowering, as they are very useful and profitable, especially for small florists who sell their own flowers. We handle them in very large quantities, and our bulbs have never been finer than they are this season; at the same time, price is lower than ever. The earlier this stock is planted, the better results will be obtained.

Extra quality bulbs, ¾ to 1¼ in. in diameter, 50c. per 100; $4.00 per 1,000.
Selected bulbs, ¼ to ¾ in. in diameter, 75c. per 100; $6.00 per 1,000.

Freesia Refracta Alba.

Now ready for delivery.

Very large quantities of these bulbs are now grown for winter-flowering, as they are very useful and profitable, especially for small florists who sell their own flowers. We handle them in very large quantities, and our bulbs have never been finer than they are this season; at the same time, price is lower than ever. The earlier this stock is planted, the better results will be obtained.

Extra size bulbs, about 1 to 1½ in. in diameter, $5.00 per 100; $40.00 per 1,000.
Selected bulbs, about 1½ to 2 in. in diameter, $7.00 per 100; $60.00 per 1,000.

Astilbe, or Spirea.

Ready for delivery in November.

Japonica. —Large imported clumps, grown especially for forcing. $4.50 per 100; 4.00 per case 250 clumps.

Compakta Multiflora. —More compact than Japonica, an extra fine variety for forcing. $4.50 per 100; per case, 250 clumps, $25.00.

Astilboidea Floribunda. —A very strong grower, and quite early. It produces very large and showy spikes. $4.50 per 100; per case, 250 clumps, $25.00.

FIRST SHIPMENTS OF LILY OF THE VALLEY SHOULD BE PLACED WITHOUT DELAYS. The Lily of the Valley, when properly grown, will produce magnificent spikes of flowers, which, if desired, can be forced earlier than any other flower. It is a flower that can be grown with great success in almost any kind of soil and climate, and will thrive in any part of the United States. It is a flower that is very popular with both the public and the florist, and will be found to be very profitable in the hands of any grower who can obtain it. It is a flower that can be grown with great success in almost any kind of soil and climate, and will thrive in any part of the United States. It is a flower that is very popular with both the public and the florist, and will be found to be very profitable in the hands of any grower who can obtain it.
ROMAN HYACINTHS.

We are glad to state that the season in Holland has been very favorable, and that the bulbs will be very much better and larger than they have been for the past two seasons. We think our customers will find the bulbs supplied by us this year very satisfactory.

FINEST NAMED HYACINTHS.

The varieties here offered are the finest sorts and those best adapted for winter-flowering or bedding, producing the largest and most perfect spikes and the most beautiful flowers, and the bulbs offered are of the largest size and finest quality obtainable. This is the only grade that should be used for pot culture or for growing in pans for winter-flowering, where flowers of highest quality are desired.

When selection of varieties is left to us, we will furnish at $6.50 per 100, $60.00 per 1,000.

GOOD NAMED HYACINTHS.

We recommend this grade particularly for bedding. The bulbs cost but a trifle more than ordinary mixed hyacinths in separate colors, but give much better satisfaction, as they bloom evenly and at one time, while the mixed hyacinths, no matter how carefully selected, bloom irregularly. This grade of bulbs will also force very satisfactorily, but, of course, will not produce quite as large spikes or as fine blooms as the Finest Named offered above, which are the finest and largest selected bulbs, but for those who want a medium-priced hyacinth, these will be found to be very satisfactory, even for forcing, although we recommend them particularly for bedding, for which purpose they are much preferable to mixed hyacinths. The varieties offered are the same as those named above.

$5.50 per 100, $50.00 per 1,000.

MIXED HYACINTHS IN SEPARATE COLORS.

This grade is largely used for bedding, and by many florists is even used for forcing although we do not recommend it for that purpose; but the bulbs that we furnish will be equal in quality to the same stock offered by others at the same figure.

We offer these either single or double, equal proportions of each color, as follows:

- Dark red
- Rose
- Pure white
- Blush white
- Yellow
- Light blue
- Dark blue

$4.25 per 100, $40.00 per 1,000.

</table>
The use of tulips for bedding and early spring flowering is constantly increasing from year to year, for there is nothing that can be planted that gives such beauty in a shorter time than the tulip. They are especially suited to the soil of manure and their roots are large, hardy, and effective in solid blocks, in separate colors, when planted indiscriminately. We offer a large variety of the very finest sorts for bedding and at prices which will make them attractive to any one who wishes to have a little more than mixed tulips, for which reason and the fact that they are much more effective when planted separately, we invariably advise their use, especially when planted in quantity. All the varieties offered are desirable for bedding. Those best adapted for forcing are so specified in description.

NARCISSUS.

Double Von Sion, or Double Yellow Daffodil.—This is one of the most useful and profitable of winter-flowering bulbs, and is forced in large quantities. The flower of the stock we offer is the pure golden yellow. Those who have been troubled with "Green Von Sions" should try our stock. Growers will find it best to buy the best Von Sion obtainable. We import the very best bulbs obtainable, and while our prices may seem high in comparison with prices quoted by some houses, we know that our double-nosed, or top-root, bulbs will give better satisfaction and prove more profitable for the money than the cheaper grades that are usually offered. We are very careful in our selection of the bulbs, and our mammoth double-nosed or top-root bulbs are the very largest, choice, and most easily forced bulbs we offer. They run about two inches in diameter and up, and should average at least two flowers to the bulb. So-called double-nosed bulbs offered at a low price must be at expense of quality. The extra sized bulbs offered are fine bulbs, and for those who want a moderate-priced bulb, they are exceedingly good value at prices quoted.

Mammoth Double-nosed, or Top-root, Bulbs. $2.25 per 100; $20.00 per 1,000.
Extra sized bulbs. $1.50 per 100; $12.00 per 1,000.

Princets (The Large Irish Single Yellow Trumpet Daffodil).—This is the earliest single variety for forcing; has magnificent large blooms; light sulphur-yellow trumpet, with lighter perianth. $1.00 per 100; $8.00 per 1,000.

Trumpet Major.

Single Von Sion.

The best single trumpet narcissus. Deepest yellow and larger flower than Trumpet Major. $1.50 per 100; $12.00 per 1,000.

Incomparable Stella*—Double, pure white, gardenia-like flowers; exquisitely scented. 90c. per 100; $7.50 per 1,000.

Incomparable Fl. Pl. ("Potter and Eggs").—Full, double golden-yellow flower, with orange center; good forcing. 75c. per 100; $6.50 per 1,000.

Incomparable Stella.—Single white star-shaped flower, with yellow cup. One of the most beautiful and most easily forced of all the narcissi. 75c. per 100; $5.00 per 1,000.

Our mammoth double-nosed, or top-root, bulbs are the very largest bulbs of the stock we offer is the pure golden yellow. Those who have been troubled with "Green Von Sions" should try our stock. We are very careful in our selection of the bulbs, and our mammoth double-nosed, or top-root, bulbs are the very largest bulbs that grow. They run about two inches in diameter and up, and should average at least two flowers to the bulb. So-called double-nosed bulbs offered at a low price must be at expense of quality. The extra sized bulbs offered are fine bulbs, and for those who want a moderate-priced bulb, they are exceedingly good value at prices quoted.

Paper White Grandiflora.

Now ready for delivery.

Extra sized bulbs, $1.50 per 100; $12.00 per 1,000; full case lots, about 1,300 bulbs to the case, $7.50 per 1,000.
**Chinese Sacred Lily**

*(Narcissus Orientalis)*

- **Ready for delivery in October.**
- These are favorite bulbs for retailing, as they make fine house plants. We offer only the best quality bulbs, grown in China, where they attain great size and strength, insuring larger bloom and remarkable profusion of flowers in a very short period. Bulbs are packed in clay.
- Original bundle containing four baskets, 90 bulbs to the basket (120 bulbs), $8.00; single basket 30 bulbs, $4.50 per 1,000.

---

**Crocus. Ready in September.**

- **MAMMOTH BULBS.**
- These are extra large selected bulbs, averaging 1½ in. in diameter. Varieties offered are also of the finest quality. They are very desirable for forcing, and these large bulbs produce a very large number of flowers and are much finer for bedding than smaller bulbs, as they have an unusually large number of flowers.
- **La Majestueuse.**—Violet, striped white.
- **Mont Blanc.**—Snowy white.
- **David Rizzio.**—Dark blue.
- **Purpurea Grandiflora.**—Dark purple; very lax.
- **Mammoth Yellow.**—Deep golden yellow.
- 50c. per 100; $4.50 per 1,000.

**FINE NAMED VARIETIES.**

- These are first sized bulbs and a first-class article where moderate priced crocus is wanted. They will not throw as many flowers per bulb as the mammoth crocus offered above, but are much finer than the mixed, and we offer them at the same figure for which common mixed crocus can be bought, enabling buyers to plant them in solid blocks or to make their own mixtures, insuring an equal assortment of colors.
- **Prince Albert.**—Dark purple.
- **Baron von Brunow.**—Purplish blue.
- **La Majestueuse.**—Violet, striped white.
- **Yellow.**—Pure golden yellow.
- **White.**—Snowy white.
- **Mammoth Yellow.**—Snowy white.
- 40c. per 100; $3.00 per 1,000.

---

**Tuberose Pearl.**

- We handle this very largely, exporting annually nearly a million bulbs—more than five carloads. Our bulbs are grown in the South, where the climate and soil are peculiarly adapted for their perfect development. We also cure our bulbs by an improved method, enabling us to offer a very superior article. We can supply these bulbs in any quantity, and will accept orders at very low prices where given in advance. Orders will be booked at any time during the year, for delivery as soon as bulbs are ripened and ready for shipment—usually about December 1st.
- **Extra quality,** $1.00 per 100; $7.50 per 1,000.

---

**Begonias—Tuberous-Rooted. Ready in December.**

- Having made arrangements with one of the largest and finest growers of Tuberous Begonias in Europe to supply us with his entire product, we are enabled to offer these bulbs at unusually low prices. While the price offered is unusually low, the bulbs are not second sized, as are generally offered, but are first-class bulbs, running 1½ in. in diameter and up. There is no finer stock to be had in Europe. The quality of the flower, notwithstanding the low price, is unusually fine—as fine as can be had—and for which many ask twice the price we charge. At the prices at which we offer these bulbs buyers will find it cheaper to buy here than to import their own stock direct. We offer them in separate colors—white, pink, scarlet, yellow, and crimson.
- **Single.**—$3.00 per 100; $25.00 per 1,000.
- **Double.**—$4.00 per 100; $35.00 per 1,000.

---

**Gloxinias. Ready in December.**

- We handle these very largely, and our strain of Hybridra Grondflossetta Erotica Grandiflor is unequalled, embracing an unusual proportion of spotted, white, pink, and other mixed colors. Bulbs of large size.
- **Finest mixed,** $4.00 per 100; $30.00 per 1,000.
- **Separate colors,**—white; red; blue; red, bordered blue; white, bordered blue; $5.00 per 100.

---

**SCILLA SIBERICA.**

- **Ready in September.**
- **Extra Quality.**
- **$2.00 per 100; $15.00 per 1,000.**

---

**COLUMBIA FLOWER TUBS—The best thing made for large Palms, Bay Trees, etc. Made of best Cypress, natural varnish finish. Tub, 12 inches in diameter, 11 inches high, $0.85 each; 15 do., 14 do., $1.35 each; 18 do., 16½ do., $1.70 each; 21 do., 18½ do., $2.10 each; 24 do., 20½ do., $2.50 each. For other greenhouse and garden supplies, see our General Wholesale List.
FEW FALL SPECIALTIES IN AZALEAS.

AZALEA MOLLIS—This class of Azaleas is entirely distinct from the above, colors being entirely different. Flowers are very large and showy, prevailing tints being yellow, orange, etc. These forms splendidly for Easter. They are very easily forced, and nothing makes a better Easter plant. They are not much used here, but are very popular in England, where large quantities are used.

Fine plants full of buds, $30.00 per 100. Extra sized plants, $40.00 per 100.

CRIMSON RAMBLER ROSE. For Easter Forcing.

Ready in November.

We desire to call the attention of the trade to the great value of this rose as a pot plant for Easter sales. The great beauty of the rose is well known. It is not of all hardy plants, but also one of the showiest and most beautiful of all hardy plants. The flowers remain on the plants and make it very desirable for this purpose. A Boston grower realized ten dollars each for every plant he had. There is no rose that is more easily grown and flowered than Crimson Rambler. We can supply an extra fine lot of strong field-grown plants, extra fine for potting and growing on for this purpose. These plants are four to five feet high, with three to four strong canes each, and the stock is in the very best possible shape. These long canes will flower from every joint, and the flowers can be made of immense size, and a perfect mass of bloom. We know no choice plant for the Easter trade, and no one can make any mistake in using a lot of this stock for this purpose.

Extra strong field-grown plants, $16.00 per 100. Selected heavier plants, $20.00 per 100.

HYBRID PERPETUAL ROSES. Ready in November.

We offer an unusually fine stock of the very choicest, and most desirable varieties for growing for pot plants for Easter or spring sales or for outdoor planting. Our stock is unusually strong, and cannot fail to please. We can supply the following extra choice sorts, viz.:

Mrs. John Lang, Ulrich Brunner, Paul Neyron, Alfred Colomb, Prince Camille de Rohan, Gen'l Jacqueminot, Baroness de Rothschild, Mme. Gabrielle Luizet, Giroir de Paris, Margaret Dickson, Baron de Bonstetten, Marshall F. Wilder, Margo Charme, Mervelle de Lyon, Mabel Morrison, La France, Mme. Caroline Testout.

Strong field-grown plants, extra heavy, $15.00 per 100. Grown in tree form, or as standards, $30.00 per 100.

POT-GROWN LILACS FOR FORCING. Ready in November.

We can supply a fine lot of these in the fall and early winter for forcing under glass. Orders will be shipped at any time for delivery upon arrival of fall importations, and plants can be supplied from that time on until spring—as long as they are in dormant condition. We offer two leading varieties, viz.:

Marie Legraye—Carmine. Charles X.—Most purple.

Strong plants, well set with buds, $7.50 per doz., $50.00 per 100.

DEUTZIA GRACILIS. Ready in November.

Very easily forced, and one of the most useful Easter plants. Fine, strong, compact plants, $12.00 per 100.

BAY TREES.

We carry in stock at all times a splendid lot of Bay Trees, both Standards and Pyramids. Buyers will find these plants excellent values at prices charged.

Fine plants, about 3 ft. in diameter, $10.00 each. Larger plants, about 3½ ft. in diameter, $15.00 each.

A few Standards with extra heavy tops, $20.00 each.

PYRAMIDAL BOX.

We have a large stock of these useful and ornamental decorative plants. The plants are sheared in compact pyramid form, and make very beautiful plants, which are desirable for many purposes, as they can be bought very much cheaper than Bay Trees, and can be used where Bay Trees are not advisable, as on account of their hardness, they will stand frost and cold. Plants are very attractive: leaves, dark olive green.

Fine specimens, well trimmed, 3 to 4 ft. high, $2.00 each.
